Preceptor Program

What is the Preceptor Program?
The Preceptor Program is designed to provide the necessary tools, knowledge and motivation to potential preceptors. It will prepare them for the success in their new role as a preceptor, role model, mentor, facilitator and evaluator. Preceptors collaborate with the Clinical Education Department and leadership to ensure their success.

What is available for resources?
Multiple learning resources are available to the preceptor to enhance their knowledge base and technical skills, including; CEUs, computer-based training, “live” workshops, reference books/materials and quarterly meetings. There is also a Preceptor committee. Their mission is to provide professional development for new and established preceptors using evidence-based practice.

Is there any incentives?
Yes. Incentives include $.075 addition to hourly rate and CAP program.
