

Speech-Language Pathologist

About our Area:

Located just north of West Palm Beach on the east coast of Florida. Beautiful coastal community with great schools, less congestion, crime and craziness of big city living. Affordable living and better quality of life with all the outdoor activities all year round .

Rehab Culture:

Teamwork, interdisciplinary collaboration, training/mentoring program for new hires, a true sense of community and family within the rehab department, the ability to work at three different sites, with different populations of patients, but all for the same company. The medical speech pathologist works primarily with adult and geriatric patients following strokes, neurological disorders, head and neck cancer, craniotomies, general medical diagnoses including pneumonia, failure to thrive and following surgeries. We provide modified barium swallow studies at all 3 hospitals.

Current needs: Per diem (up to 40 hours) Inpatient and Out-patient SLP and Full-Time Lead SLP
